First Spouse Reverse Design Narratives

Edith Wilson

EdW-R-01 – Following President Wilson’s stroke, Edith Wilson assisted her husband during the remainder of his Presidency. She described this period as her “stewardship.” In this image, she is helping him manage paperwork.

EdW-R-02 – Edith Wilson helps her husband manage the paperwork of the Presidency following his stroke.

EdW-R-02A – A revised version of EdW-R-02.

EdW-R-03 – Edith Wilson was the first woman to drive an electric car in Washington, D.C.

EdW-R-04 – Edith Wilson launches the freighter “Quistconck” from Hog Island, PA in 1918.

EdW-R-05 – Edith Wilson supports her husband. His right hand holds his cane while her left hand rests warmly on his hand.

EdW-R-06 – Edith Wilson assists her husband with the paperwork of the Presidency. She holds his inkwell and steadies the paper as he writes.

EdW-R-07 – Edith Wilson assists her husband with the paperwork of the Presidency.
